San Marino
Coffee machines – Australia & New Zealand

C.M.A. is one of the world's leading manufacturers of professional espresso coffee machines and certainly one of the most dynamic.

In 30 years of dedicated service to this sector of catering equipment, it has built up a name for, excellent quality, top-scale service, and family style relations with customers worldwide. It has thrown itself headlong into developing new systems and lines of equipment, from its own initiative and with the input from its international network.

QUALITY – FLEXIBILITY – PRICE – SERVICE

These are the key words to consider when buying an espresso machine.

Saeco and C.M.A. (San Marino) gives you them all (and more). There are over 18,000 machines manufactured yearly at the C.M.A. facilities in Italy testify to the excellence of the product and the service.

The Brava Series

A superb combination of retro and modern styling.

Conceived through the combined efforts of the manufacturer, distributor and barista, CMA have produced a model with care taken in the choice of details; the knobs and filter-holders, the touch pads, the steam wands and hot water spouts.

All the features are then combined around a brewing system suited to the highest standards necessary for a superior coffee quality.

Brava SME

The Lisa Series

Style, elegance, and quality are attributes synonymous with the classic Lisa Series from San Marino.

The Lisa series machine combines state of the art technology with superior craftsmanship to produce a magnificent finish.

The Automatic version features a precision electronic volumetric control, which will dispense the right amount of coffee at the single touch of a button, while the semi-auto feature is kept for a more complete selection of beverage.
